

# Coldplay - Everglow

Hmi G . D F#mi6 . ... 5x piano intro

Oh, they say people come                      Say people go  
This particular diamond                      was extra special  
And though you might be gone    And the world may not know  
Still I see you, celestial ....  
When I should, but I can't, let you go? ... **F#mi6**

But when I'm cold,                                      ... cold  
Oh, when I'm cold,                                      ... cold  
There's a light that you give me    When I'm in shadow  
There's a feeling you give me,                      an everglow

Hmi G . D F#mi6/A . ... 2x piano high

Like brothers in blood                              Sisters who ride  
And we swore on that night We'd be friends 'til we die  
But the changing of winds    And the way waters flow  
Life is short as the falling of snow  
And now I'm gonna miss you, I know    ... **F#mi6**

But when I'm cold,                                      ... cold  
In water rolled,                                      ... salt  
I know that you're always with me    And the way you will show  
And you're with me wherever                      I go  
And you give me this feeling                      This everglow

Hmi G . D F#mi6/A . ... 3x hard intermezzo

Oh what I would give for just a moment    to hold...  
Yeah, I live for this feeling,                      it's everglow

Hmi G . D F#mi6/A . ... 2x intermezzo

So if you love someone    You should ... - ... let them know  
Oh, the light that you left me                      will everglow ... **D**
